

# Managing Distributed Cisco FTD Instances Using Cisco FMC

---

**Nick Russo**

NETWORK ENGINEER

@nickrusso42518 [www.njrusmc.net](http://www.njrusmc.net)

# Agenda

**Why is Cisco FMC useful?**

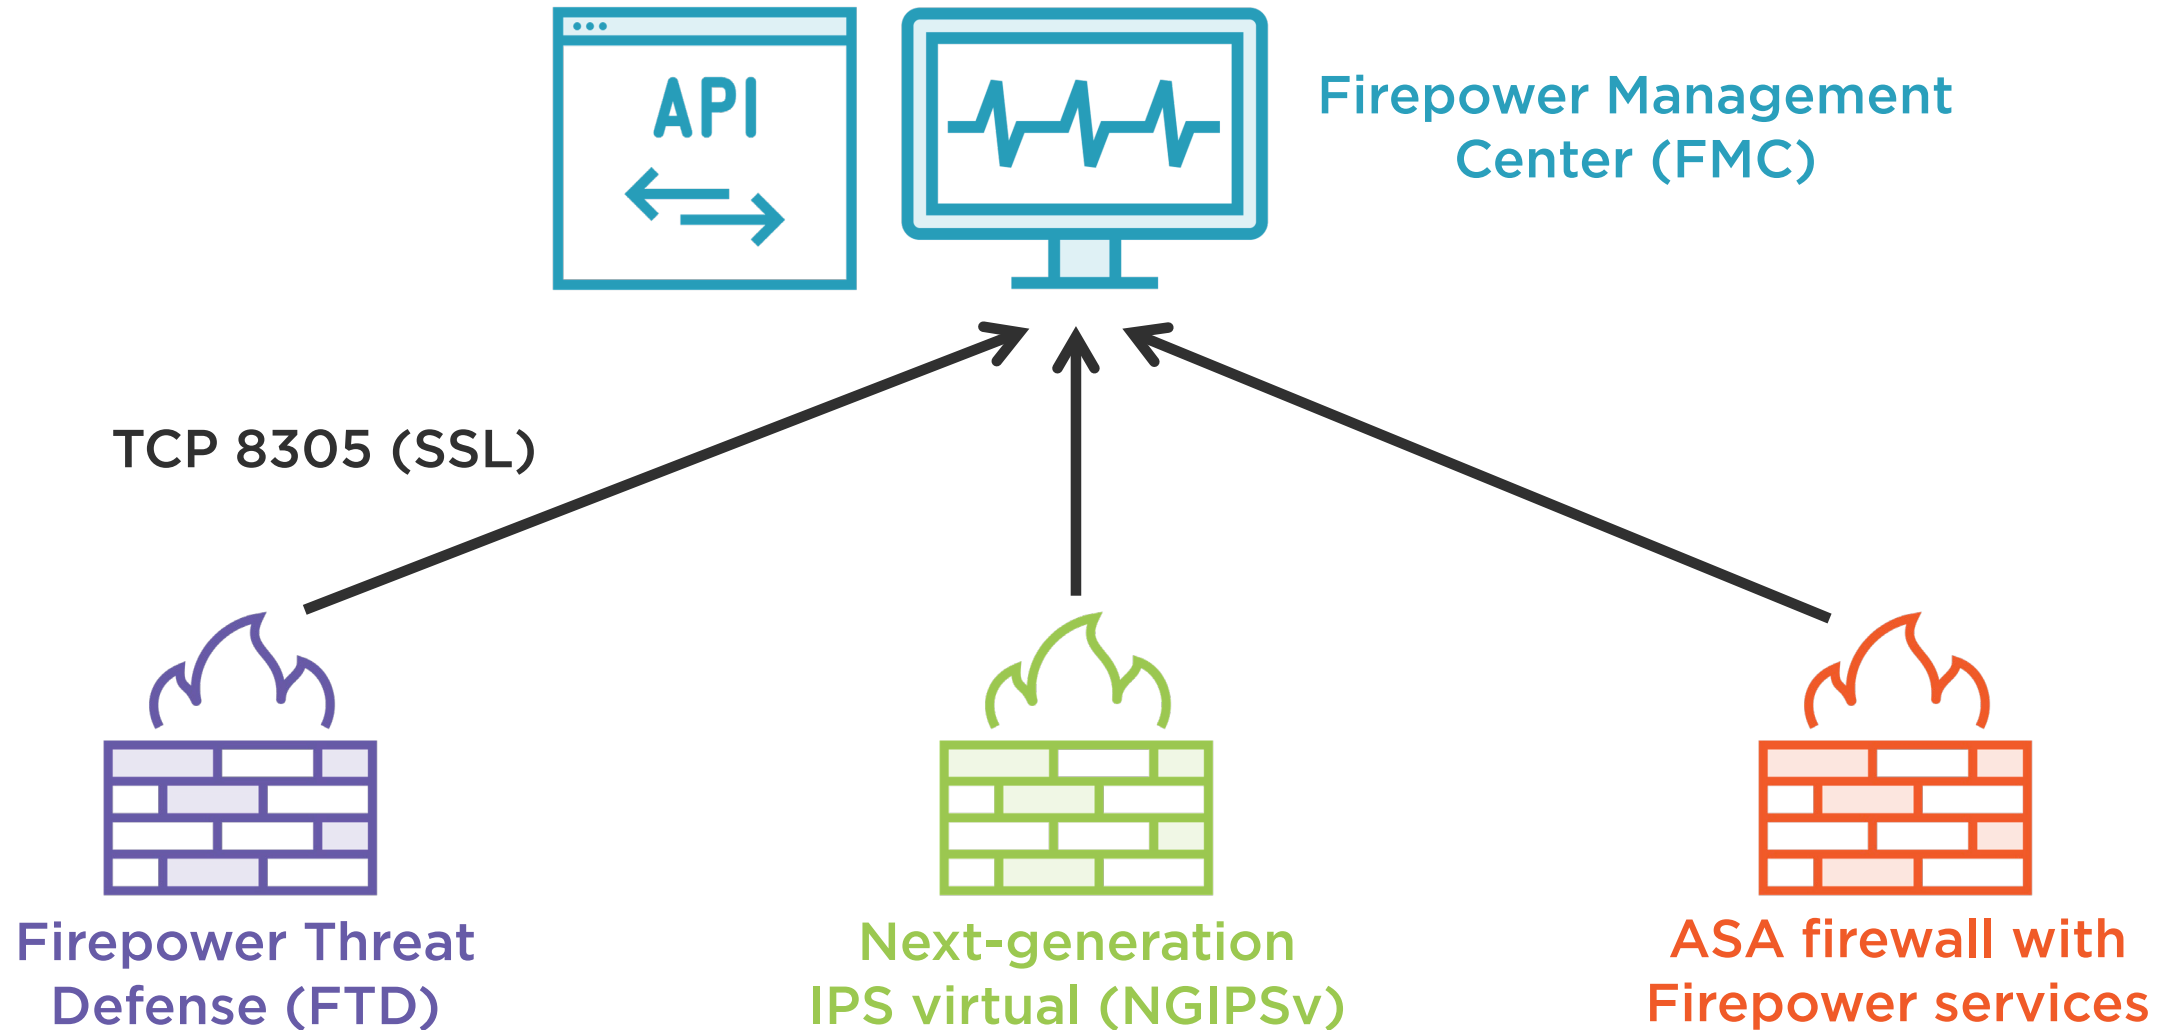

**Developer resources to help you**

**Policy automation:**

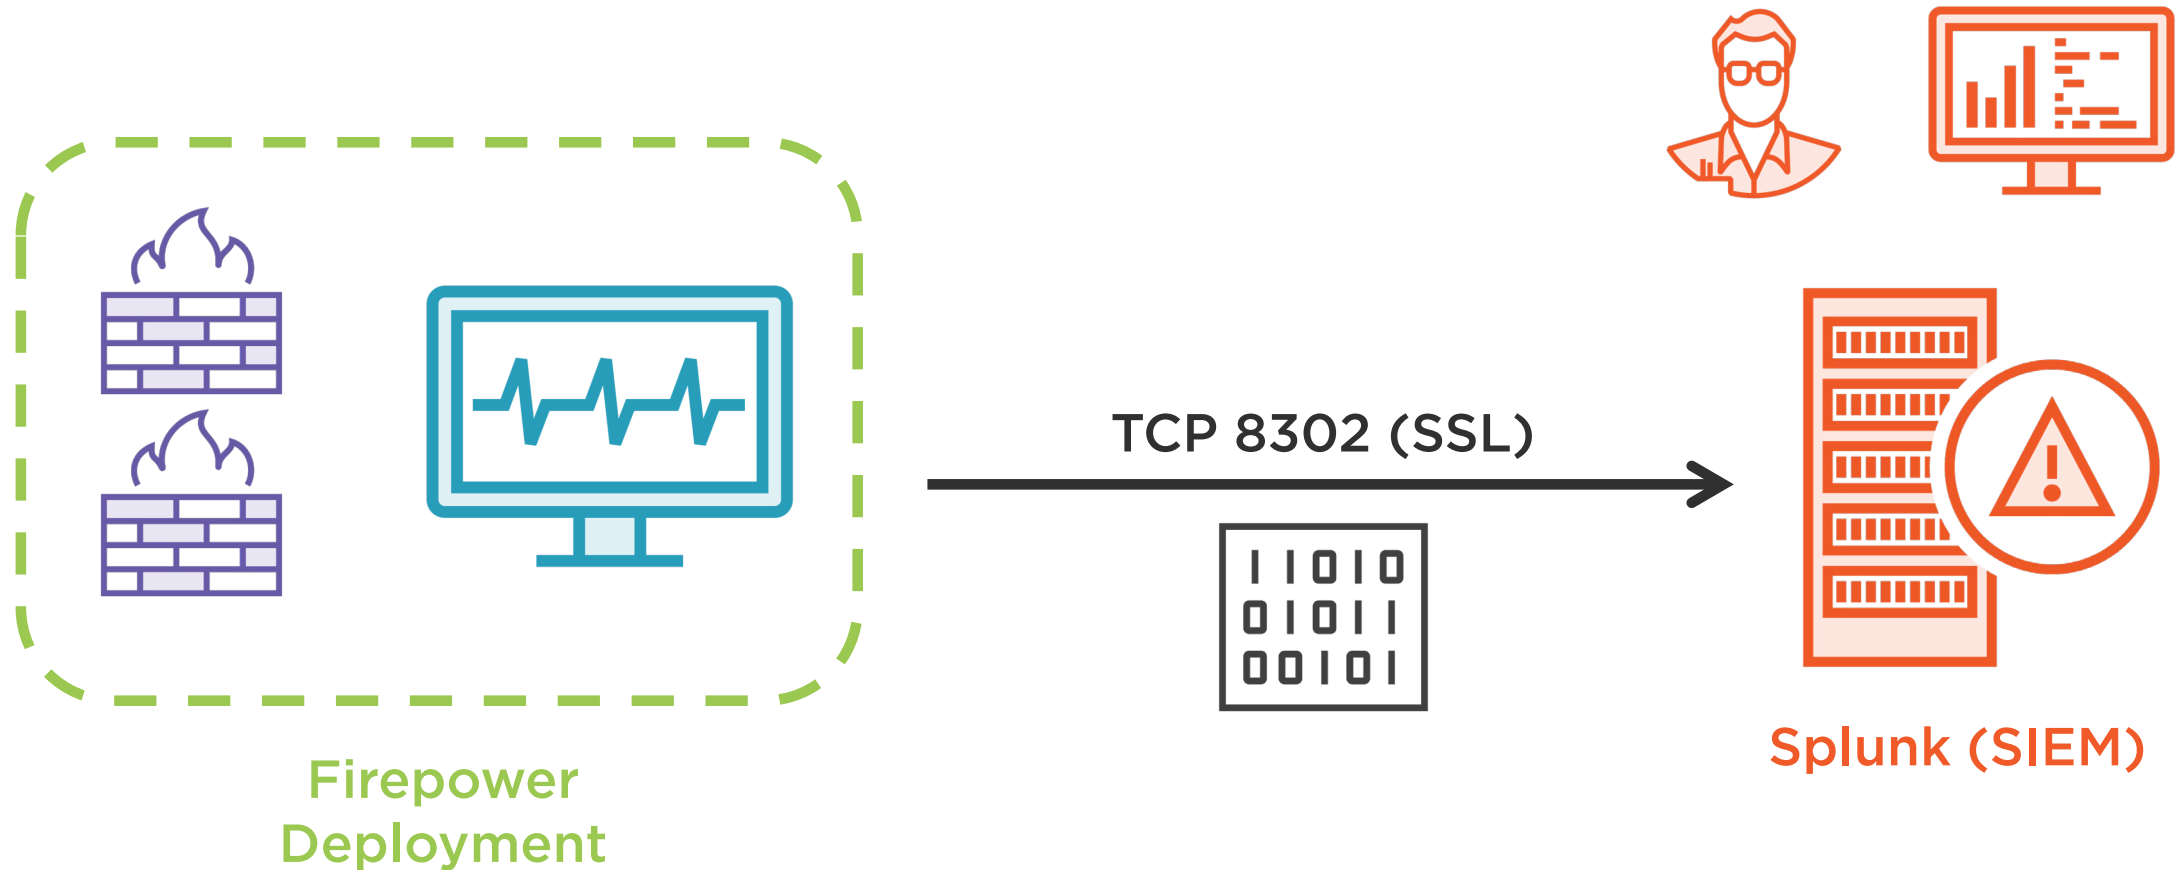

- Initial authentication
- Object management
- Policy deployment

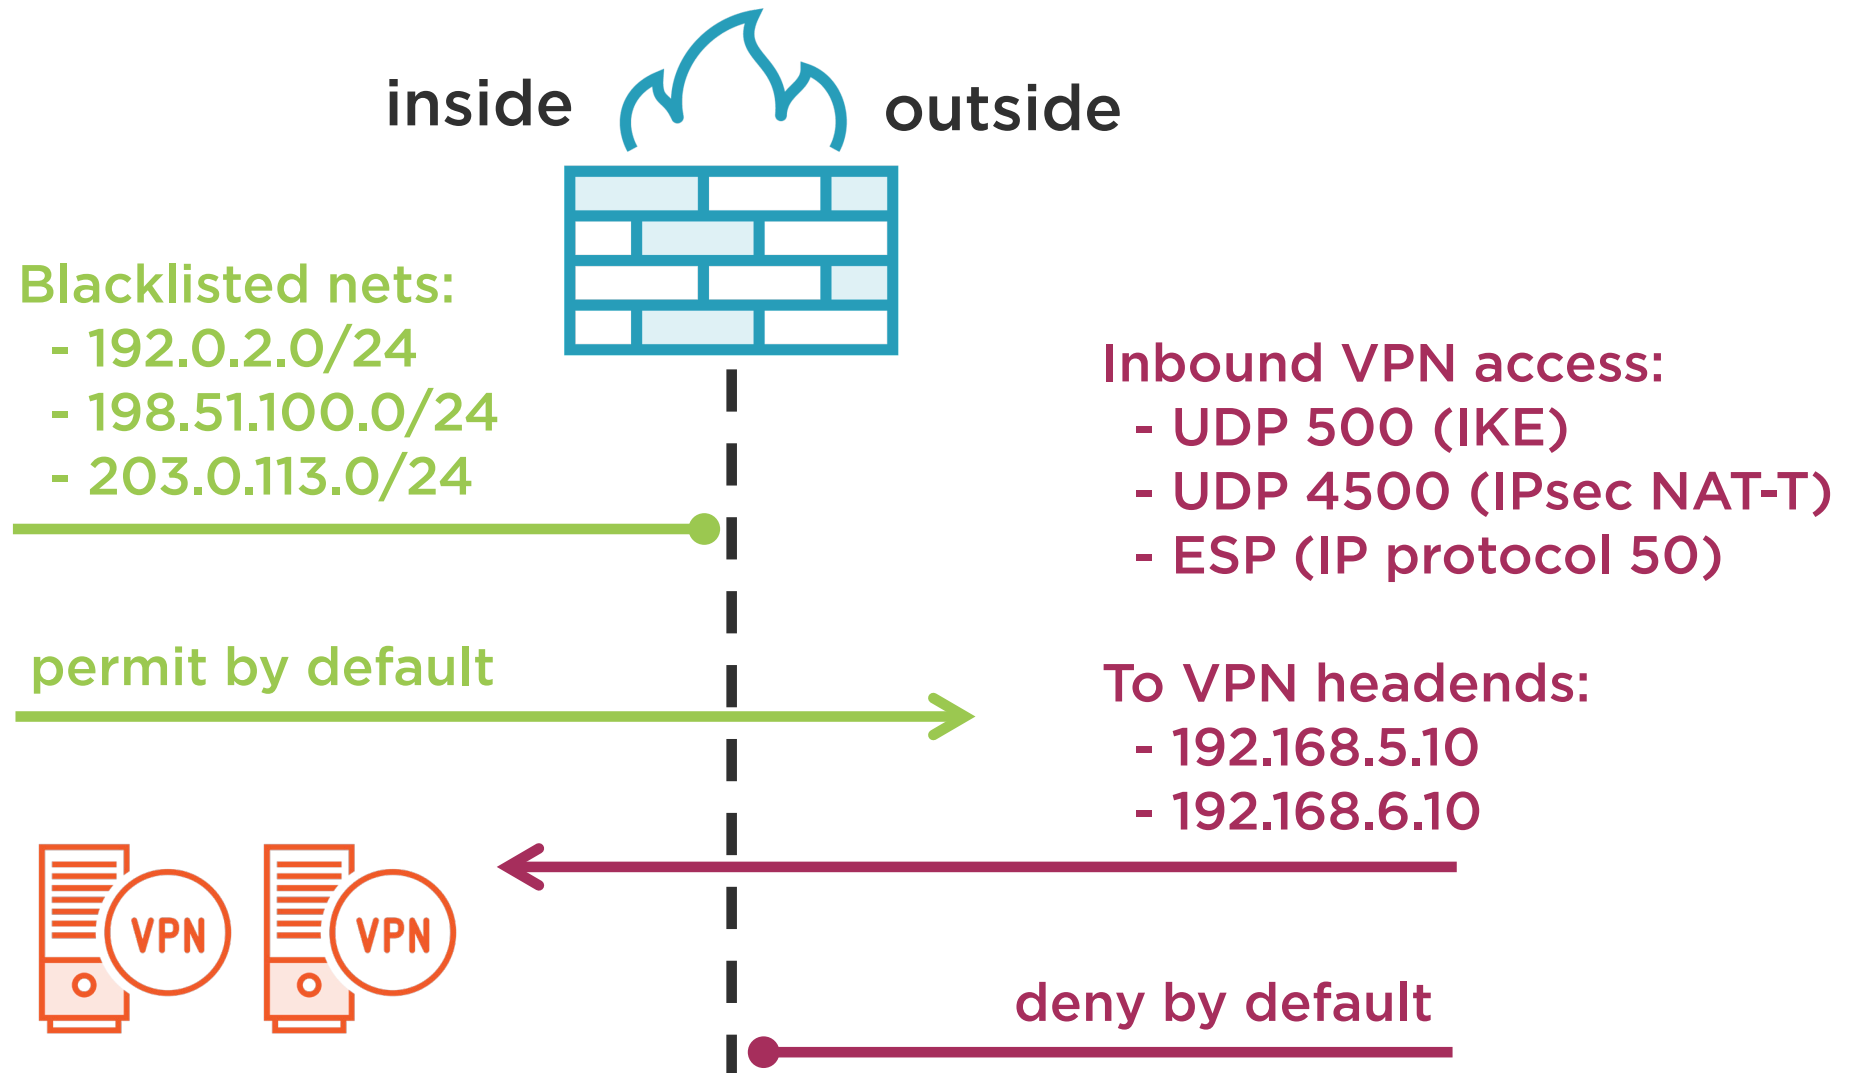

# Cisco Firepower Management Center

# FMC System Event Streamer (eStreamer)

# Our Security Policy Goals

# Demo

Developer resources to help you

# Demo

## FMC initial authentication

# Demo

## Managing policy objects in FMC

# Demo

## Building access policies and rules

# Demo

## Deploying and validating our policy

# Summary

**FMC's place in the architecture**

**Objects, policies, and rules**

**Challenge:**

- Add your own custom rules

**Thank you!**
