

# Constructing and Deploying Cisco FTD Access Rules

---

**Nick Russo**

NETWORK ENGINEER

@nickrusso42518 [www.njrusmc.net](http://www.njrusmc.net)

# Agenda

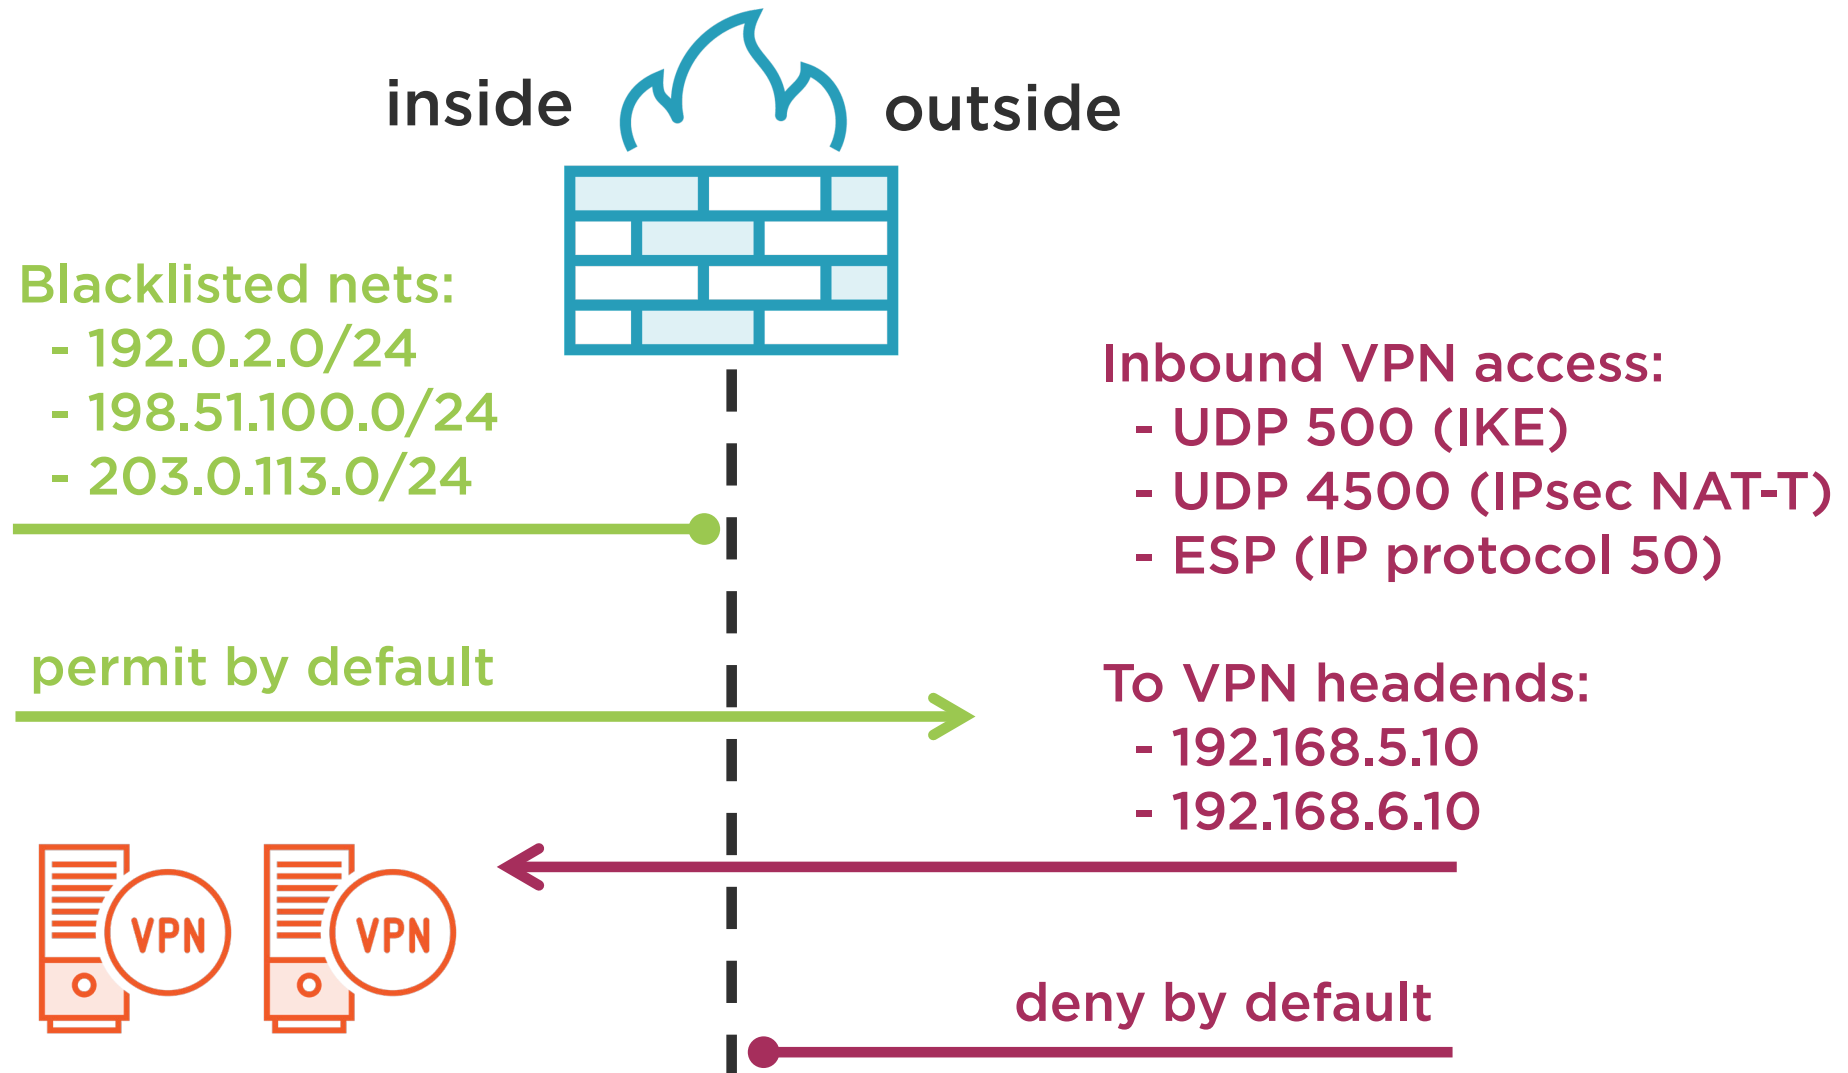

## Reviewing the security design

### Demos:

- Collect security zones
- Manage access rules
- Add IPS support
- Deploy configuration changes
- Verify security policy

# Our Security Policy Goals

# Demo

## Collecting security zones

# Demo

## Managing FTD access rules

# IPS Policy Options

Connectivity  
Over Security

Balanced  
Security and  
Connectivity

Security over  
Connectivity

Maximum  
Detection

More overhead/security

# Demo

Add "balanced" IPS support to VPN rule

# Demo

## Deploying the configuration changes

# Demo

## Validating our policy

# Summary

**Managing security access rules**

**Enhancing rules with IPS policies**

**Deployment and validation**

**Challenge:**

- Add your own custom rules
