Collecting Client Health Details from Cisco DNA Center

Nick Russo

NETWORK ENGINEER
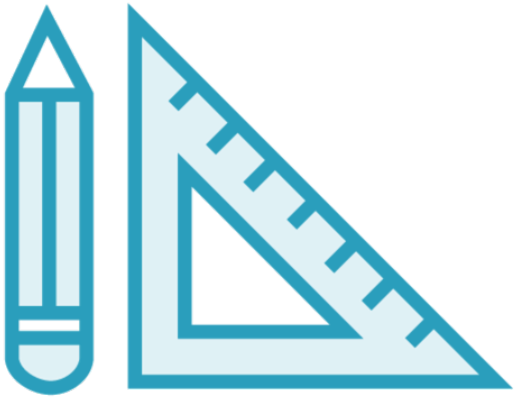

@nickrusso42518   www.njrusmc.net

Agenda

Cisco DNA Center refresher

Lots of demos (again):
- Collecting client health
- Handling API timeouts
- Getting specific client details
- Handling API rate limits

Cisco DNA Center Capabilities

Design   **Policy**   **Provision**   **Assurance**

DNA Client Health Monitoring

00:00:00:00:11:11 – Health: GOOD
00:00:00:00:22:22 – Health: GOOD
00:00:00:00:33:33 – Health: POOR

Enterprise Network

00:00:00:00:11:11

00:00:00:00:22:22

00:00:00:00:33:33

Demo

Collecting overall client health

Demo

Optimization: API timeouts

Demo

Collecting details from a specific client

Demo

Optimization: API rate limits

Summary

Collecting client health and details

Overcome timeouts with attempts

Overcome rate limits with request pacing
